Chasyn Wood Technologies is a young, dynamic, export-based re-manufacturing company. We strive for excellence in product quality and customer service. This, along with our ability to adapt to change - both in technology and in the marketplace - ensures we are able to remain steadfast in our commitment to provide maximum value to our customers at every step.

Last year Chasyn exported over 60 million FBM on sales of \$18 million US. This year we estimate we will export 80 million FBM in products and our sales will top \$25 million US. To accommodate this increase, we recently moved to a larger site that can house even more re-manufacturing operations. With our existing equipment, and the addition of dry kilns, a finger-jointer, and increased yard space, we will be able to offer our customers the ability to do "*one-stop shopping*" custom remanufacturing.

In order for us to reach our full potential in the marketplace, we are searching for candidates who have the qualities to work in a physically demanding, *value-added*, production environment.

- ◆ You must be physically fit and capable of physical work
- ◆ You must be a team player
- ◆ You must be dependable
- ◆ You must have a minimum Grade 12 education
- ◆ You should be bondable
- ◆ WHMIS and First-Aid training (OFA Level 1, 2, or 3) are definite assets
- ◆ **Preference will be given to those who have achieved *WoodLINKS Certification*.**

Opportunity for advancement is available to those who show aptitude and desire.

Please forward your resume with cover letter and references to:

***Chasyn Wood Technologies, 23347 McKay Avenue,
Maple Ridge, B.C. V2W 1B9
