McBride Forest Industries Ltd.

EMPLOYER PROFILE

McBride Forest Industries Ltd. is a veneer/sawmill plant located in McBride, BC. Green veneer is manufactured and shipped to Canadian and US markets. Rough lumber and landscape ties are produced year round, with the rough lumber being planed on site during the summer months. Our woodlands staff handles planning and harvesting activities. McBride Forest Industries Ltd. presently employs approximately 76 people.

The company requires production line employees for its veneer and lumber manufacturing facilities. Applications for planer positions, millwrighting, scaling, and forestry technical positions will also be accepted.

McBride Forest Industries Ltd. is interested in accepting applications from participants in the WoodLINKS Certification program.
